Name
Address

Dear Farmer:

The Natural Resources Conservation Service of the US Department of Agriculture, as part of its responsibility in carrying the conservation provisions of the Food Security Act (FSA) of 1985, as amended, is conducting status reviews on a random selection of USDA program participants. Your tract was selected at random from others that have Highly Erodible Land and you receive payments from one of the USDA programs. The purpose of this review is to determine if the conservation provisions of the Farm Bill are being followed. Your tract number(s) _____ has been selected for review this year.

The status review will consist of making determinations on conservation compliance (application of your conservation plan), wetland conservation and early release Conservation Reserve Program provisions as they apply to this tract of land.

The status review will be completed within the next 30 days and we will contact you by phone in order to make a specific appointment to complete the review.

You will not be required to be present during the status review but I would encourage you to do so, in order that we can discuss matters concerning the review.

Sincerely,

District Conservationist
